Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: in paragraph [0005], line 2, reference to claim numbers is not a proper disclosure of the invention as claims scope and numbers may change throughout the prosecution; and in paragraph [0014], line 2, "1in" should read --1 in--.

Appropriate correction is required.

Claim Objections

2. Claims 2-4 and 6 are objected to because of the following informalities: in claims 2 and 6, line 1, "Expander" should read --The expander--; and in claims 3 and 4, line 3, "the pertinent" should read --respective--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the inner wall", "the outer ring shell" and "the upper surface" in lines 10, 11, 13 and 14 respectively. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Jagminas (US Patent 3,500,524).

With regards to claims 1 and 2, Jagminas discloses a roll with a tubular sleeve 24 having an inner wall adjustable in its curvature (figs. 1 and 4) and that is formed of a one-piece tube made of reinforced plastic or composite material including fiber glass (col. 4, lines 3-6), and that is mounted on a non-rotatable central area by means of bearings 16, the roller comprising the non-rotatable central area including a deformable axis 12 and wherein outer surfaces of the bearings rest against outer ring shell bushing 14 and wherein the inner surfaces of the bearings rest on an outer surface of the deformable axis 12 (figs. 1 and 4). Applicant should note that the roller of Jagminas could be considered an expander roll.

Regarding claim 3, see figures 1 and 4.

Regarding claim 4, Applicant should note that that limitation has not been given any patentable weight since the inner bushings are recited in the alternative in independent claim 1.

Regarding claims 5 and 6, Applicant should note that the bearings disclosed by Jagminas are roller ball bearings, see column 2, lines 72-74.

Regarding claim 7, see figures 1 and 4.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
